

Come on come on (I feel inside me)

Masterboy

had to feel repeat the lonely for I can let you go
No way to keep my heart inside me, I felt so alone
I walk away through stormy weather, I run away with tears
I walk away to feel inside me, this like me, oh, I feel inside
me
And now I need your love, don't need your love,
Don't need your love, I go away

Come on, come on, let me go, come on, come on, lose my soul
Come on, come on, got to love, I feel inside me
Come on, come on, let me go, come on, come on, lose my soul
Come on, come on, got to love, I feel inside me
Come on, come on, let me go, come on, come on, lose my soul
Come on, come on, got to love, I feel inside me
Come on, come on, let me go, come on, come on, lose my soul
Come on, come on, got to love, I feel inside me

Don't try to please me with your car, come on put away your sto
p
Don't try to please another love, I had, had enough
We used to feed so well together but time exchange my mind
Don't wonder why I feel inside me, this like me, oh, I feel ins
ide me
And now I need your love, don't need your love,
Don't need your love, I go away

Come on, come on, let me go, come on, come on, lose my soul
Come on, come on, got to love, I feel inside me
Come on, come on, let me go, come on, come on, lose my soul
Come on, come on, got to love, I feel inside me
Come on, come on, let me go, come on, come on, lose my soul
Come on, come on, got to love, I feel inside me
Come on, come on, let me go, come on, come on, lose my soul
Come on, come on...
