

## Fall in trance

Masterboy

Fall in trance (light it up, light it up)  
Fall in trance (light it up, light it up)  
Fall in trance, fall in trance  
Fall in trance, give me your hands now  
Fall in trance (light it up, light it up)  
Fall in trance (light it up, light it up)  
Fall in trance, fall in trance  
Fall in trance, ohh, give me your hands now

Light your justice right down never way to the keeper  
You got eyes on around on the foot, I've got to make it  
Clouds allowed to feed  
Then your mind right to get it, set your light free

Fall in trance (light it up, light it up)  
Fall in trance (light it up, light it up)  
Fall in trance, fall in trance  
Fall in trance, give me your hands now  
Fall in trance (light it up, light it up)  
Fall in trance (light it up, light it up)  
Fall in trance, fall in trance  
Fall in trance, ohh, give me your hands now

No more pieces to hide you when I'm gotta patience  
Oh, but power to fry deep your side, where is the real sence  
Are you hitching your will?  
Let's get together for a green dance, set your light free

Fall in trance (light it up, light it up)  
Fall in trance (light it up, light it up)  
Fall in trance, fall in trance  
Fall in trance, give me your hands now  
Fall in trance (light it up, light it up)  
Fall in trance (light it up, light it up)  
Fall in trance, fall in trance  
Fall in trance, ohh, give me your hands now  
Fall in trance (light it up, light it up)  
Fall in trance (light it up, light it up)...
