

# I'm Gonna Win

## Masterplan

I watch them falling, to their knees, I've worked my fingers till they bleed  
In the dark of night you hear them scream, help me get away  
And so I've chosen to break free, sail my ship across the seas  
Always reaching for eternity... Now it's time  
I'm gonna win... Waiting for the moment to be free  
Gonna find a way  
I'm gonna win... Never gonna lose again you'll see  
Gonna fight today... I'm gonna win  
Now I'm learning what is right as the fire burns the night  
Gonna find my way to truth tonight... Now it is my time  
I'm gonna win... Waiting for the moment to be free  
Gonna find a way  
I'm gonna win... Never gonna lose again you'll see  
Gonna fight today... I'm gonna win  
Walking through darkness with me  
I see the light can you see  
Finding the power that grows in you  
This is for real  
I'm gonna win... Waiting for the moment to be free  
Gonna find a way  
I'm gonna win... Never gonna lose again you'll see  
Gonna fight today... I'm gonna win  
I'm gonna win... Waiting till the moment comes to me  
Gonna find a way  
I'm gonna win... Soon I'll let the spirits set me free  
Gonna fight today... I'm gonna win
