

# The Heaven Dance Of The Psychopatic Joy

**Masturbace**

Dancing limped colors  
happy by their crippleness  
painfully curved  
into bizard spirals.

Wall raped with sadness  
by the green colour of death  
at the feast with stones  
abandoned by their masters.

Dancing limped colors  
in the insparable embrace  
with the staunched crocks  
bloodily painful dance of psychopatic joy.
