

# How Long

## Matchbox Twenty

So many time with you and I  
Thought it was right, but I was wrong  
It's true  
But I wouldn't feel the way I do  
Without a sense of something real  
For you

It's all about a good thing  
So I don't mind holding on

But how long  
Are you gonna make me wait  
And how long  
Are you gonna hesitate  
'Cause I love the way we carry it on  
But baby how long

You know the way they always say  
Don't make it never, it's better late  
Well that's true  
But tell me why, my cautious angel  
Must you put it in my face  
Like you do

And it's all about a good thing  
So I don't mind holding on

But how long  
Are you gonna make me wait  
And how long  
Are you gonna hesitate  
'Cause I love the way we carry it on

But baby I don't ever wanna make it feel too rushed  
Make it feel like love wouldn't be enough  
But that's just another don't mean much  
Like a high school crush, make you wanna run  
Can't you see the way I need you crazy  
And I want you in my arms every night, of my life

So tell me how long  
Are you gonna make me wait  
And how long  
Are you gonna hesitate  
'Cause I love the way we carry it on  
But baby how long  
How long  
How long

How long  
How long  
How long  
Tell me how long
