

Loving You

Matt Costa

Loving you's not hard to do
We're always gonna make it through
You've got my attention, here's my affection for you
So bring your green eyes here to me
Swimming in a sea of tears
Oh they cut right through me,
And you were free and clear

Now I'm gonna hold you tight
Sweeter than all of the fruit
Looking down from the hills in this valley
As long as your heart beats you were made for me,
Where the lights are low, and the smoke is thick
Let's go back to how it felt then
So I can say...

Loving you's not hard to do
We're always gonna make it through
You've got my attention, here's my affection for you

I found you in that great big crowd
Your silent screams I heard out loud
Closer, feel it burning, I'm gonna love you in style

And when I hold you tight
Sweeter than all of the fruit
Looking down from the hills in this valley
As long as my heart beats you were made for me,
Where the lights are low, and the smoke is thick
Let's go back to how it felt then
So I can say...

Loving you's not hard to do
We're always gonna make it through
Loving you's not hard
