

My Only Love

Matt Maher

I still want you
Yes, I need you
To have and to hold you
After all of these years

I will listen
To your problems
Won't try to fix them
Just wipe away your tears

And if you need me in the middle of the night, my dear
I'll stay awake till morning light and chase away your fears

So come closer
Right here forever
Deep in my heartbeat
Together as one
My only love

If you need me in the middle of the night, my dear
I'll stay awake till morning light and chase away your fears

So come closer
Right here forever
Deep in my heartbeat
Together as one
My only love
My only love
My only love
