

Two Left Feet

M. Pokora

Temperature is high
I got a fever burning hotter than the sunlight
Everybody, leave
There's no grantee
So I promised myself that would never happen to me

No matter what I say or do
It's always wrong
It's always wrong
I know I can't give you what you want
Give you what you want

I got two left feet
I got two left feet
In love, in love
I got two left feet
I got two left feet
In love, in love
So just let me dance
So just let me dance
So just let me dance
No love
So just let me dance
So just let me dance
So just let me dance
No love

I won't feel a thing
When it comes to
I got a thousand scars
So I'll keep on dancing here with a broken heart

No matter what I say or do
It's always wrong
It's always wrong
I know I can't give you what you want
Give you what you want

I got two left feet
I got two left feet
In love, in love
I got two left feet
I got two left feet
In love, in love
So just let me dance
So just let me dance
So just let me dance
No love
So just let me dance
So just let me dance
So just let me dance
No love

I got two left feet
I got two left feet
In love, in love
I got two left feet

I got two left feet
In love, in love
So just let me dance
So just let me dance
So just let me dance
No love
So just let me dance
So just let me dance
So just let me dance
No love
