

Weight On Me

Matt Simons

For a moment all our cards are on the table
Why you gotta be so shy?
I'll make something out of nothing if I'm able
I should just walk on by

There's a picture in your pocket of somebody
And he is waiting back at home
I've been climbing up your stairs and I am sorry
He's got a right to know
Yeah, he's got a right to know

So I'm running out
Maybe you've got something that I dream about
We can't keep on going around telling lies
Somewhere in this I became the other guy
I can't be that, I don't need that weight on me
And I don't need that weight on me

There's a world where I can picture us together
And it'd be different, it'd be right and
My conscious would be feeling so much better
Then I've been feeling tonight
Then I have been feeling tonight

So I'm running out
Maybe you've got something that I dream about
We can't keep on going around telling lies
Somewhere in this I became the other guy
I can't be that
I don't need that weight on me
No, I don't need that weight on me

We might be having our fun
But with us carry so much more
Now all this damage we've done
I've been the one alone at home before

And I don't need that weight on me
I don't need that weight on me
No, I don't need that weight on me
I don't need that weight on me

No, I don't need that weight on me
No, I don't need that weight on me
No, I don't need that weight on me
And I don't need that weight on me
