

From Myself Baby

Matt Willis

I have a little trouble trying to be myself
I feel inadequate next to everybody else
I didn't figure out I was in bad health
Without you
I only feel alive when you're...
Something 'bout the love that is in your eyes
It captivates and runs straight through to my mind
Then I smile

Oh baby, I'm going crazy
Do you think you can save me, from myself baby

Time goes by, I'm still a mess
My clothes don't fit, I don't want to undress
The melody beats into my chest
And I can't sing

Oh baby, I'm going crazy
Do you think you can save me, from myself baby

Oh baby, I'm going crazy
Do you think you can save me, from myself baby
From myself baby
From myself baby
Do you think you can save me?
Do you think you can save me?
Do you think you can save me?
From myself...
From myself baby
