

Made To Last

Maude

I hope i'm not fooling myself
My love did i just fool myself ?

Trigger happy weren't, we aiming at something
We're still having a bad shot shooting the fun
We've been waiting 'til its target locked in
But now look, there's no one holding a gun
Pull the chord. We're plummeting free-fall
Oh! but, honey did we bring our parachute?
For so long we've, been out of key
Aren't you jealous of pitches?
They got auto-tune.

I'm playing back to the first day we met.
Reviewing the first words we sent via that social networking site
I can't believe we're having this fight
Oh i miss the way we forget that we're grown-ups.
It's only with you i, can be eleven years old
Again, can we just sleep this off?
Maybe tomorrow we can finally drop our guards down .

Can you feel back?
Can you feel back?
Can you feel back?
Nevertheless.

We may fight all day long
I can take it
I know that you also feel like .
We are built in hard core
We are made to last.

We may fight all day long.
I can take it
I know that you also feel like
We are built in hard core
We are made to last.

Made to last
Made to last
Made to last
Made to last

I hope i'm not fooling myself.
My love did i just fool myself.
