Right As The Rain

Maureen McGovern

Right as the rain That falls from above So real, so right Is our love

It came like the spring That breaks through the snow I can't say what it may bring I only know, I only know

It's right to believe Whatever gave your eyes this glow Whatever gave my heart this song Can't be wrong

It's right as the rain That falls from above And fills the world with the bloom Of our love

It's right to believe Whatever gave your eyes this glow Whatever gave my heart this song Can't be wrong

It's right as the rain That falls from above And fills the world with the bloom Of our love

As rain must fall And day must dawn This love, this love Must go on
