

A Mile Away

Maverick Sabre

Run a mile away to a quiet place where we can escape to
Run a mile away
Run a mile away
Run a mile away to a quiet place where we can escape to
Run a mile away
Run a mile away

There's thoughts in my head
Playing a big old game
There's some room in my bed
If you want to hide with me
Think we're more than just the motion
You're like the ocean breeze
But take my love pre-cautiously
My love pre-cautiously

Run a mile away to a quiet place where we can escape to
Run a mile away
Run a mile away
Run a mile away to a quiet place where we can escape to
Run a mile away
Run a mile away

I just hope you know that I always think you're important darli
ng
Tell me if I'm keeping you stressing up in the early morning
I know you can teach me a lesson and I've been waiting for it
And I've been stuck here sat in the sunniest situations
With a wonder on my face
Contemplating you getting naked
Wait back up in this

Just like this
You never call my way
Just like this
You never call my way

Run a mile away to a quiet place where we can escape to
Run a mile away
Run a mile away
Run a mile away to a quiet place where we can escape to
Run a mile away
Run a mile away
