

# I Used To Have It All

Maverick Sabre

I remember how I used to feel  
Things just seemed so sweet  
Now they don't  
And it's so hard to see  
I remember how I used to be  
Now it's all just changed  
And I'm cold in the grave  
It's like I won't ever be the same, no  
Now I'm alone

But I used to have it all  
But now, I'm slipping and I'm falling down  
Them days seem so close  
But somehow they've gone so far away

See something just ain't right  
See your government kill others  
For a wage that's how we waste life  
I bleed, you bleed, we bleed together  
Getting lost up in the system  
That teaches us to be separate  
Easier and ignorant when we're locked up in sections  
As one, we're strong, hold on, never let up  
I'm fed up living in this world  
Where they tell us we're nothing  
Without money to show and to represent us  
But damn my skin color  
Cause we're still brothers and sisters  
Don't let them tell you any different.  
I'm still trapped in this system  
I'm locked in this prison  
We're still trapped in this system  
I'm locked in this prison

But I used to have it all  
But now, I'm slipping and I'm falling down  
Them days seem so close  
But somehow they've gone so far away  
[x3]
