

Ain't No Doubt About It

Mavis Staples

Sometimes I get so worried
I don't know what to do
But all the things I worry about
Very few of them come true
And when they do I call on you

Every time I get crowded
Sometimes I just can't breathe
I try not to think about it
When I feel it coming over me
I know exactly what that means

Ain't no doubt about it
I'll always be your friend
Ain't no doubt about it
I can count on you till the end

Sometimes I feel like talking
And then I don't know what to say
Sometimes I have the answers
But my questions keep taking away
That's when I always call your name

Ain't no doubt about it
You'll always my friend
Ain't no doubt about it
I can count on you at the end

Ain't no doubt about it
I'll always be your friend
Ain't no doubt about it
I can count on your (Count on you till the end)
Till the end

Every time I get worried
When I don't know what to do
I think a lot of things I'm worried about
How few of them ever came true
If that don't work I'll call on you
