

# One Love

Mavis Staples

In a moment  
When the skies are grey  
When I feel like running away  
I close my eyes  
Close my eyes  
Start to bob and sway

In a moment  
When the chips are down  
Open my mouth I can't make a sound  
I clap my hands  
I clap my hands  
Rise and stand and say

I know the one love is in me  
I know the one love is in me  
I know the one love is in me  
I know the one love

In a moment  
When you can't decide  
A moment  
All torn up inside  
Quiet your mind  
Quiet your mind  
Let your love light shine

I know the one love lives in me  
I know the one love lives in me  
I know the one love lives in me  
I know the one love, love, love

What am I supposed to be  
What am I supposed to say  
If I'm lost at sea  
I'd say hit me, hit me, hit me  
I'd say hit me, hit me, hit me  
Go on hit me, hit me, hit me  
Go on hit me, hit me, hit me  
Hit me with the love and I won't feel no pain

I know that one love lives in me  
I know that one love lives in me  
I know that one love lives in me  
I know that one love  
I know that one love lives in me  
I know that one love lives in me  
I know that one love lives in me  
I know that one love
