

# Set Me Free

Maxi Priest

There's no mistake in what I feel right now no  
Sitting in your livingroom tell me what's it all about  
My whole world has changed ever since you been around  
Tried to get myself together but it's all upside down

What do you mean about maybe hear you now  
You might as well lock me up and cage me oh  
I'm a man and I've got needs  
And my needs you can't seem to see  
If you got a heart baby won't you set me free yeah yeah  
(Tell me what's going on and what's it all about)

Sweet music playing on and oh girl it's so fantastic  
But if you keep telling me no I'm gonna make my own exit  
And then I see you want me to stay  
Now you keep on telling me no then you wanna play around  
But as I reach the door to make my exit  
You keep calling me back girl I can't take it no wohwohwoh

What do you mean about maybe hear you now  
You might as well lock me up and cage me oh  
I'm a man and I've got needs  
And my needs you can't seem to see  
If you got a heart baby won't you set me free yeah yeah  
(Tell me what's going on and what's it all about)

I know when, I know where, I know how to please a woman  
And baby I know every move and every button  
I tried to take it easy just the way you'd want me to  
But I tell you baby you don't seem to feel the same as I do  
All my advances you're resisting  
Access to your heart, area restricted oh

What do you mean about maybe hear you now  
You might as well lock me up and cage me oh  
I'm a man and I've got needs  
And my needs you can't seem to see  
If you got a heart baby won't you set me free yeah yeah  
(Tell me what's going on and what's it all about)

What do you mean about maybe hear you now  
You might as well lock me up and cage me oh  
I'm a man and I've got needs  
And my needs you can't seem to see  
If you got a heart baby won't you set me free yeah yeah  
(Tell me what's going on and what's it all about)

What do you mean  
What do you mean about maybe hear you now  
You might as well lock me up and cage me oh  
Understand where I'm coming from baby  
I know you're not blind, deaf or dumb  
What do you mean

What do you mean about maybe hear you now  
You might as well lock me up and cage me oh  
I'm a man and I've got needs

And my needs you can't seem to see  
If you got a heart baby won't you set me free yeah yeah  
(Tell me what's going on and what's it all about)
