

The Greatest Love of All

Maximilian Hecker

I belong where the sun shines
I belong in your heart
I belong in your sorrow
With the greatest love
I've ever known
Let me walk down the alley
Let me walk down in your tear
I will fly like an angel
With the greatest love
I've ever known
In the flooring answers
I believe in your headroom
I believe there's someone out
I believe in you
I will love in the flower
I will love you for good
I will fly like an angel
With the greatest love
I've ever known
I believe in this alley
That will take me to you
I believe in the sunlight
With the greatest love
I've ever known
In the flooring answers
Hold me close in your headroom
I belong where the flowers grow
I belong with you
I belong where the sun shines
I belong in your heart
I belong in your sorrow
With the greatest love
I've ever known
With the greatest love of all
