I'm eating crow babe

I had to go and think that I could be more best
Left alone then with you next, it develops nonetheless
Hell hath no fury than the flurry of your snow
Global warming ain't got nothing on this chick she's not to pla
y with

You can't just leave this, you can't just think that you can qu it this

She'll make you regret this, she's on top and she means busines

As God as my witness, my summers gone frigid, my summers gone frigid

I know you can hear this

How can you be so cold, how can you be so cold?

Good God the girls gone cold, Oh my the girls gone cold

How can you be so cold, how can you be so cold?

I'm on freeze fo' sho, Oh Lord you're so cold, so cold

Tell me baby why I can't believe, yeah Something as good as you could ever love me Lighter than air you felt like a ton of bricks You dropped out from the sky filled with mercy

How can you be so cold, how can you be so cold? Good God the girls gone cold, Oh my the girls gone cold

God bless you baby, oh you're too good to me Too good to be anything the mortal man can call on Do it baby, do it baby

How can you be so cold, how can you be so cold?

Good God the girls gone cold, Oh my the girls gone cold

How can you be so cold, how can you be so cold?

I'm on freeze fo' sho, Oh Lord you're so cold

So cold, so cold
Oh Lord you're so cold
So cold, so cold
