## **Fistful Of Tears**

Maxwell

Feel just like a weight has lifted it How can I repay you help me understand Currency a fistful of tears I can afford Fight of your life is not the cost Time will reveal All along you're the one who's losing

Cause I go insane Crazy sometimes Tryin you to keep you from losing your mind Open your eyes See what's in front of your face Save me my fistful of tears

You can make it disappear girl All you got to do is just raise up, face up, stay up All things will heal we'll feel it with a kiss from the skies Don't' you let it go Don't' you let it go

Cause I go insane Crazy sometimes Tryin you to keep you from losing your mind Open your eyes See what's in front of your face And save me my fistful of tears

We gon fight the war We gon fight our fears The only thing I wanna throw is a fistful of tears We gon fight the war We gon fight our fears The only thing I gotta throw is a fistful of tears We gon fight the war We gon fight our fears The only thing I wanna throw is a fistful of tears

Cause I go insane Crazy sometimes Tryin you to keep you from losing your mind Open your eyes See what's in front of your face And save me my fistful of tears

Cause I go insane Crazy sometimes Tryin you to keep you from losing your mind Open your eyes See what's in front of your face And save me my fistful of tears
