Wall of Water

Mayhem

Pillars supporting sky crumble Sun moon the stars pour down Rivers and oceans rush where the earth sinks Great conflagration quenched by raging flood

North and south polars
Counterchange
Screaming world
Turning over
Sky makes war with the earth
Fragments fall down

And the darkness that follows

Rent
In great
Chasms

Tachylite lava from the abyss Turn into a pillar of vapour Great heat boil the sea Death of a continent

Enormous surge of water Wipe out humanity

Coming of ice
A cataclysmic flood
Destroys the advanced
Mankind of high tech age

Wall of water Sweep across the earth

Wall of water Fossilize all
