

Pressure

Maysa

The road is long, many turns along the way
We lose control of the things we do and say
Oooh, I can't stop what's going on.

Sometimes we need a little rain
Wash away the pressure, pressure
Bring back the days
Like children in the rain
Take away the pressure, pressure

The world demands, so much everyday
We do our best, but sometimes it's never enough
I can't stop what's goin' on

Sometimes we need a little rain
Wash away the pressure, pressure
Bring back the days
Like children in the rain
Take away the pressure, pressure
(repeat)
