

This Song

Mcfly

Somewhere in the world
Someone's makin' love to this song right now
Somewhere in the world
Someone's makin' love to this song
Somewhere on the earth
Someone's driving home to this song right now
Somewhere on the earth
Someone's driving home to this song

Wrap your legs around me
And make the most of this ride
By turning off your mind

Got to lose control
Release the fire in your soul
And your desires
Let me know
And I'll try
Girl, I'll try to make you happy
I won't stop until the day that I die

Somewhere in this town
Cover bands are playing this song right now
Somewhere in this town
Cover bands are playing this song

Wrap your legs around me
And make the most of this ride
By turning off your mind

Got to lose control
Release the fire in your soul
And your desires
Let me know
And I'll try
Girl, I'll try to make you happy
I won't stop until the day that I die

Got to lose control
Release the fire in your soul
And your desires
Let me know
And I'll try
Girl, I'll try to make you happy
I won't stop until the day that I die

Cause I need you woman
To peer over me
Yeah, I could be your someone
To give, give, give
You what you need

Got to lose control
Release the fire in your soul
And your desires
Let me know
And I'll try

Girl, I'll try to make you happy
I won't stop until the day that I die

Got to lose control
Release the fire in your soul, baby
And your desires
Let me know
And I'll try
Girl, I'll try to make you happy
I won't stop until the day that I die
