Listen!
We've got a situation
There always putting us down
We are the generation
Can't keep us underground

Is it my imagination Or do you feel good?

We're on a one way mission We can take it or die We are the sunshine nation Can't take the satellites

Is it my imagination Or do you feel good?

What a day, What a day, What a day What a day, What a day, What a day What a day, What a day, What a day What a day, these are the days

Running the world
It's the time of our lives
And baby we wont ever die
cos we're the young we're alright

We've gotta stop this feeling Cos i don't wanna live twice we better start believing before we run out of time

Is it my imagination
Or do you feel good?

What a day, What a day, What a day What a day, What a day, What a day What a day, What a day, What a day What a day, these are the days

Running the world

It's the time of our lives

And baby we wont ever die

cos we're the young we're alright

alright, hey

Running the world

It's the time of our lives

And baby we wont ever die

Fight till we fall

Standing tall

Cos time is on our side

Cos we're the young we're alright

yeah we're alright yeah we're alright

yeah we're alright

```
Is it my imagination (No!)
Is it my imagination (No!)
Is it my imagination (No!)
```

We're the young we're alright
