

# Home Alone

Me vs Hero

(Verse)

I swallowed my front door  
Our lungs choked to see God stuck in my throat  
It's underneath your sacrifice  
We pull ourselves together when I'm already through

(Interlude)

Save your words for fallin' through  
Neva could survive what I've been through  
Save your words for fallin' through  
Neva could survive what I've been through  
Save your words for fallin' through  
Neva could survive what I've been through
