

Upbeat (Down)

Me vs Hero

(Now's our time to rise!)

This song goes out to all the non-believers
The way they treat us and the way they perceive us

We'll make it out alive (tear down the walls tonight!)

(They said) this would be our ending
(But this) this friday night's the one
Bursting at the seams with beats and melodies
Dropping harmonies in major keys

To all our friends at home
Everybody at our shows
It's because of you we know
We'll never stand alone
The beat beat down lifts up our spirit, step up step up
The beat beat down lifts up our spirit, step up (this one's for
our friends!)

And we will let the melody carry us, (break down, break down) t
he barriers
We will storm the stage like warriors, take out take out the ca
meras
Now's our time to rise, our hearts beating out the rhythm insid
e
(Say it with pride!)

(For us) this is the beginning
(The soundtrack) to the story of our lives
Shaking up the scene with beats and melodies
(Life in major keys!)

To all our friends at home
Everybody at our shows
It's because of you we know
We'll never stand alone
The beat beat down lifts up our spirit, step up step up
The beat beat down lifts up our spirit, step up (this one's for
our friends!)

(Because of you we know, we'll never, stand alone!)
