

## Circles

### Meat Beat Manifesto

It's like a dream come true  
Theorise  
Come Alive  
Through and through  
It just goes to show  
Take a chance  
If you're ready  
Let everything flow  
Each and every one of us  
Can talk in circles  
Yeah each and every one of us  
Will walk in circles  
It's all you'll ever need

Why do we idolize it  
(It's all you'll ever need)  
If you can't justify it?  
(It's all you'll ever need)  
I'm bedazzled  
By the answers that unravelled  
That were fantasized  
There's no single disposition  
On the planet  
Just the colours that collide  
Yeah each and every one of us  
Can talk in circles  
Yeah each and every one of us  
Will walk in circles  
It's all you'll ever need

Why do we idolize it  
If you can't justify it?  
Why do we idolize it  
If you can't justify it?  
Get ready to go  
Come on let's pick up speed  
It's all in the mind  
It's all you ever need  
It's all you ever need
