

Right before the leaf as fat before the waters
The invisible leafs trashed by implotion
They said you were strong then you were addicting
Too water is cold still yet predicting

Dispencerly of redicerly life
By the new leaf and the old leaf
Unfloding now from this rediculice mind
By the new leaf from the old leafs

These slippery shoes never fit the sailer
All skatterd and loose since they were created
They wouldn't behave and bad at problem solving
So they couldn't be saved from old mistakes and hovern

Dispencerly of redicerly life
By the new leaf and the old leaf
Unfloding now from this rediculice mind
By the new leaf from the old leafs

Out before the leaf is out where its revolving
New different leafs the ocean was dissolving
Knew it wouldn't behave so it became dependent
Never fit her between her soul legit or dependent

Dispencerly of redicerly life
By the new leaf and the old leaf
Unfloding now from this rediculice mind
By the new leaf from the old leafs

Dispencerly of redicerly life
By the new leaf and the old leaf
Unfloding now from this rediculice mind
By the new leaf from the old leafs
