

Warm Blood

Meg & Dia

I've been stuck in my crazy mind thinking
Oh my God, is this all I got
All the voices say you're dead either way
Oh my God, honey, thanks a lot
Oh my God, honey, thanks a lot

I got just enough
I got, I got warm blood
I got just enough
I got, I got warm blood
Open my arms to good love
Wish on a star for good luck
I got, I got warm blood
I got the air in my lungs
I swear that I don't need much
I got, I got warm blood

There's a light in a lonely room
Saying come inside honey, you're alright
All my memories, every piece of me
What a sight but they make me smile
What a sight but they make me smile

I got just enough
I got, I got warm blood
I got just enough
I got, I got warm blood
Open my arms to good love
Wish on a star for good luck
I got, I got warm blood
I got the air in my lungs
I swear that I don't need much
I got, I got warm blood

I'm not saying I don't get lonely
Somber days that made me crawl
But I got oxygen to flow through me
A heart that beats after it stalls

I got just enough
I got, I got warm blood
I got just enough
I got, I got warm blood
Open my arms to good love
Wish on a star for good luck
I got, I got warm blood
I got the air in my lungs
I swear that I don't need much
I got, I got warm blood

I got just enough
I got, I got warm blood
I got just enough
I got, I got warm blood
