

Almost

Megan & Liz

So close
We ran instead of walking so I didn't want to stop it
I was so low
Right before I met you, didn't think that I could get you

I know we burned so bright
Sometimes the stars just don't align

We almost made it
Five feet from the finish line
It was overrated
We ran right out of time
Knocked it out of the park, the other half of my heart
I loved you more, I loved you most
Almost

So close
It's a short story but it's still a love story
Had to let go
A little too early, doesn't mean it didn't hurt me

I know we burned so bright
we had our moment in time

We almost made it
Five feet from the finish line
It was overrated
We ran right out of time
Knocked it out of the park, the other half of my heart
I loved you more, I loved you most
Almost

So I'll put you on my shelf and I'll look for someone else
These miles got a way of wearing on these hearts
If we were both on central time, then maybe you'd be mine
Too bad this had to end before it could start

We almost made it
Five feet from the finish line
It was overrated
We ran right out of time
Knocked it out of the park, the other half of my heart
I loved you more, I loved you most
Almost
Almost
Almost
Almost
