

Drive

Megan & Liz

I'm no good at breaking hearts
Crashing worlds and falling fast
Always thought we could make it last
It is like a dead end coming fast

I don't want to do it
I don't want to think about it now
So I put the pedal down

Maybe all I need is 4 wheels and gasoline
Yeah this open road is right where I wanna be
Sunset on the dash, if you're looking back
Maybe I should say goodbye but tonight I'm gonna drive
I'm gonna drive

Need some time to clear my head
Don't wanna say things I might regret
The only way I can get it right
Is burning miles down 65

Do I wanna do it
Do I wanna put you through it now
Am I ready to turn around

Maybe all I need is 4 wheels and gasoline
Yeah this open road is right where I wanna be
Sunset on the dash, if you're looking back
Maybe I should say goodbye but tonight I'm gonna drive
I'm gonna drive

Oh oh should I stay or do I go
But I still don't know
Just a little more time
Just a couple more miles

Maybe all I need is 4 wheels and gasoline
Yeah this open road is right where I wanna be
Sunset on the dash, if you're looking back
Maybe I should say goodbye but tonight I'm gonna drive
I'm gonna drive
Drive
I'm gonna drive
