# Silver Medal

**Megan Nicole**

```
You tell me you are over it
I'm picking up on all the little hints
She's all you ever talk about
Do I have to spell it out?

You say you wanna be with me
When you look into my eyes
Who do you see?
I'm feeling I could come apart
It's down to her or me, I won't share your heart

Cause I ain't a Silver Medal, baby
So stop wasting my time
You better get her out of your mind
Cause I ain't a Silver Medal, baby
I'm leaving you behind
So you better get her out of your mind

You wear your shades to play it cool
I see through you, I won't be your fool
Step back into reality
Or you're never gonna get with me

Don't call me when you feel alone
Just because she isn't picking up the phone
You've always known it from the start
It's down to her or me
I won't share your heart

Cause I ain't a Silver Medal, baby
So stop wasting my time
You better get her out of your mind
Cause I ain't a Silver Medal, baby
I'm leaving you behind
So you better get her out of your mind

You tell me you need me
But I think you're crazy
Cause if I'm not the only one
There's nothing left to say

Cause I ain't a Silver Medal, baby
So stop wasting my time
You better get her out of your mind
Cause I ain't a Silver Medal, baby
I'm leaving you behind
So you better get her out of your mind

Cause I ain't a Silver Medal, baby
So, stop wasting my t-i-me
You better get her out of your mind
