

# Babygirl

Meghan Trainor

(Love yourself, love, love yourself  
Love yourself, love, love yourself  
Love yourself, love, love yourself  
Love yourself, love, love yourself)

Babygirl, don't give up yet  
Practice patience, hold your breath

One day you'll be so in love  
This is not your curtain call  
One day you gon' have it all  
I said one day you gon' have it all

As soon as you love yourself (love yourself)  
You never know what an angel you are  
Stop breaking your heart  
As soon as you love yourself (love yourself)  
You gotta try before anyone can  
You'll understand  
Soon as you

(Love yourself, love, love yourself  
Love yourself, love, love yourself  
Love yourself, love, love yourself  
Love yourself, love, love yourself)

Babygirl, I know it's hard  
Tryin' to quiet all your thoughts

One day they'll leave you alone  
You'll feel better when you grown  
One day you gon' take your throne  
Baby, go ahead and take your throne

As soon as you love yourself (love yourself)  
You never know what an angel you are  
Stop breaking your heart  
As soon as you love yourself (love yourself)  
You gotta try before anyone can  
You'll understand  
As soon as you

(Love yourself, love, love yourself  
Love yourself, love, love yourself  
Love yourself, love, love yourself  
Love yourself, love, love yourself  
Love yourself, love, love yourself  
Love yourself, love, love yourself  
Love yourself, love, love yourself  
Love yourself, love, love yourself)
