

Weather For The Better

Meiko

I can't shake this feeling
I am finally in love this time
My heart's through the ceiling
I'm so happy that you're mine, all mine

'Cause when the rain came I was outside
With a broken umbrella and a nickel to my name
Then I found you doin' just the same
So we both got together and we changed the weather for the better

I can be your lady
No more maybes, this is the real thing
Don't need no Mercedes
We can ride around in my Sebring

'Cause when the rain came I was outside
With a broken umbrella and a nickel to my name
Then I found you doin' just the same
So we both got together and we changed the weather for the better

Oh, we don't need no money to be happy
Do we, baby?

'Cause when the rain came I was outside
With a broken umbrella and a nickel to my name
Then I found you doin' just the same
So we both got together and we changed the weather for the better

'Cause when the rain came I was outside
With a broken umbrella and a nickel to my name
Then I found you doin' just the same
So we both got together and we changed the weather for the better

Oh, we don't need no money to be happy
Do we, baby?

I can't shake this feeling
I am finally in love this time
My heart's through the ceiling
I'm so happy that you're mine, all mine
