

# Nowhere to Run

Melanie C

Let it in, breathe it out  
Exhale the things that I've done  
I'm so fucking careful  
Weighed down by the undertone  
God, I wish I was numb  
Familiar burden

In a crowd, in a room you're alone  
No matter where you are  
I see exit signs and there's no way out

I wanna run, I wanna hide  
My heart is shaking, hear me. Breaking  
You sneak in without making a sound  
Nowhere to run, nowhere to hide  
No mistaking you're overtaking  
Without me letting my guard down  
Why do you do this to me?

Ho, ho

I sense you begin to leave  
But I know you'll return, the one thing I'm certain of  
Relief a you lose your grip  
But the damage is done  
I'm cold and I'm hurting

In a crowd, in a room you're alone  
No matter where you are  
I see exit signs but there's no way out

I wanna run, I wanna hide  
My heart is shaking, hear me. Breaking  
You sneak in without making a sound  
Nowhere to run, nowhere to hide  
No mistaking you're overtaking  
Without me letting my guard down  
Why do you do this to me?

Don't wanna freak out  
I gotta breathe out  
I gotta breathe out  
Don't wanna freak out  
I gotta breathe out  
I gotta breathe out

I wanna run, I wanna hide  
My heart is shaking, hear me. Breaking  
You sneak in without making a sound  
Nowhere to run, nowhere to hide  
No mistaking you're overtaking  
Without me letting my guard down  
Why do you do this to me?
