

Back in Love

Melissa Ferrick

whatcha gonna do now
that you've seen the real me
crying out my eyes for you
trying to hold on to some sanity
yeah I clean up real nice
smile ear to ear
but I'm packing a thousand watts
in case I need to see my way clear out of here

in and out
back in love
I'm always in and out and back in love with you babe
in and out
back in love
always in and out and back in love with you babe

so whatcha gonna do now
that you've seen the real me
crying out my eyes for you
trying to hold on to some sanity
yeah whatcha gonna do now
love me for the rest of my life
love me till I'm strong enough
love me for the both of us
come on can you love me for the both of us

in and out
back in love
I'm always in and out and back in love with you babe
in and out
I'm back in love
always in and out and back in love

everybody
all together now
tell me your stories one by one
I wanna hear who's been there and back again
I wanna know has anybody ever won against love
has anybody ever won

yeah
in and out
back in love
I'm always in and out and back in love with you babe
in and out
back in love
I'm always in and out and back in love, love with you
baby
I'm in love with you baby

in and out
back in love
I'm always in and out and back in love with you babe
in and out
I'm back in love
I'm always in and out and back in love
