

## Outside Looking In

Melissa O'Neil

Tell me what are you hiding, under the stairs  
Tell me what's in your closet, what's got you scared  
Cause I've come so far, to know who you are  
And you always leave me waiting

[Chorus:]

I'm so tired of standin here at your door  
It's not what I wanted I want more  
I wish I knew what was inside but I've always been  
On the outside looking in

Feels like I've know you forever but what do I know  
You never answer my questions, only the door  
So I wait for you to show me who  
You are, but I'm still waitin'

[Chorus:]

I'm so tired of standin here at your door  
It's not what I wanted I want more  
I wish I knew what was inside but I've always been  
On the outside looking in

Do your secrets keep you warm at night or do they keep you lonely?  
Do the brick walls keep you safe from harm, is that why you won't get to know me?

[Chorus:]

I'm so tired of standin here at your door  
It's not what I wanted I want more  
I wish I knew what was inside but I've always been  
On the outside looking in
