

I'm never fool for fools go, most of these niggas tools, I use hoes
Back and forth, I'm an active force, if I was a color, I would be blue
balls
Pulling new go's more than one, it's all wet bitch it's more to come
Coming from the lay up at the forest lumps
A nigga in the house got the broken gun
I'm still forgotten to be mentioned, but ain't no point of a trio
Cause a nigga who take the first step slips, I'll be second
I trip out listening to brand new whack cause nigga and I racking
Motherfuckers don't want a piece of me, I'm tekking
Better get to stepping or I hit you with the weapon
The weapon to get you stepping like an anti-depressive
End it all with a blessing it is, or live a life like mine
I look at my reflection, I don't see my shines
In a stainless steel protection, protection
I kill em all with music or this fucking Smith and Wesson

Brrr, dreams won't go away, dreams have turned into a nightmare
You gotta watch yourself, go and go and get some eye care
Cause what do a nigga like I care?
So this ain't shit but an idea, and it's quite clear,
The brighten here, with a fruit of ...
dreams won't go away, dreams have turned into a nightmare
You gotta watch yourself, go and go and get some eye care
Cause what do a nigga like I care?
So this ain't shit but an idea, and it's quite clear,
The brighten here, with a fruit of ...

I just turned 21, carrying that glass I'ma wine oh
Cool can with like nice souls, like origami time folds
Don't call the hami, that's a life show
I'ma fresh ass nigga ...don't play me for my dough
Raid me, or I will go crazy, insane as my mother when laid me
24 with a baby, single, broke and a lady
Till this day that shit still phase me
Cause until she in that Mercedes and that house in veneluezes
I ain't gonna stop, fuck you pay me, or you gonna see the today me
I got so many bitches on my dick right now
Left brain, fin to go and cop a whip right now
Yeah we young and getting it and where we fit right now
Players be in the game, not on the bench right now
Shoot for the sky like a pop up to your city
We pop up, open shop gwap up and sell out, a lot of stuff, bitch
It ain't bout money, niggas got responsibilities
Usually gadget utilities to fulfill the needs feeling me?

Brrr, dreams won't go away, dreams have turned into a nightmare
You gotta watch yourself, go and go and get some eye care
Cause what do a nigga like I care?
So this ain't shit but an idea, and it's quite clear,
