

Little Something

Melody Gardot

We could be a little something
I'll be everything you wanted
I could bring you real comfort
Give you a break from loving
I'm trying more than just a little
I wanna meet you in the middle
Reading you is like a riddle
I really wanna figure you out

Don't you worry what you're gonna lose
In the heat of the moment
We're rushing into something new
But we're keeping it focused

Don't call me lover
Stop thinking 'bout it, thinking 'bout it
I'm not the others
We could keep it simple as
La di da di da
We could keep it simple as
Don't call me lover
Stop thinking 'bout it, thinking 'bout it

We could be a little something
The melody you keep on humming
A feeling so sweet and subtle
A last piece to your puzzle
I know you're gonna feel like running
Wouldn't give my love for nothing
I'll be everything you wanted
Tell you that I won't let you down

Don't you worry what you're gonna lose
In the heat of the moment
We're rushing into something new
But we're keeping it focused

Don't call me lover
Stop thinking 'bout it, thinking 'bout it
I'm not the others
We could keep it simple as
La di da di da
We could keep it simple as
Don't call me lover
Stop thinking 'bout it, thinking 'bout it

We could be a little something
We could be a little something
We could be a little something
We could be a little something

Don't call me lover
Stop thinking 'bout it, thinking 'bout it
I'm not the others
We could keep it simple as
La di da di da
We could keep it simple as

Don't call me lover
Stop thinking 'bout it, thinking 'bout it
