

Momma

Melody Gardot

Momma it's driving me insane
to see you in such an awful pain
you know that i'll do anything i can
just to make you smile all over again

[Chorus:]

Momma, what's been going on,
you've been way to down,
for way too long
i said Momma,
did i go and do something wrong,
Momma, what's going on

Momma you can take your time,
Momma that will be just fine,
but you know i'd listen up to every word
come on, Momma now
don't you be absurd,

[Chorus:]

Momma, what's been going on,
you've been way to down
for way to long
i said Momma,
Did I go and do something wrong,
Momma what's going on

Momma, i know you're feeling blue,
i see the way he talks to you,
his words, they cut like a knife
and Momma i know you're feeling bad
i see the way he miss you sad,
i wish that I could change our lives
but I figure it out
You got to start it all over now

[Chorus:]

Momma, what's been going on
you've been way to down
for way too long
I said Momma, did i go and do something wrong
Momma, what's going on
Momma what's going on
Momma what's going on
