

My One and Only Thrill

Melody Gardot

Birds may cease to spread their wings
But it don't matter, but it don't matter
Winters may envelop spring
But it don't matter, but it don't matter

'Cause when I'm with you
My whole world stands still
You're my one and only thrill

Ships may never leave the dock
But it don't matter, but it don't matter
Ticks may never hear a tock
But it don't matter, but it don't matter

'Cause when I'm with you
My whole world stands still
You're my one and only thrill

Shores may never reach the tide
But it don't matter, but it don't matter
Buds may never open wide
But it don't matter, but it don't matter

'Cause when I'm with you
My whole world stands still
You're my one and only thrill

You're my, you're my
You're my one and only thrill
