

There Where He Lives in Me

Melody Gardot

There where he lives in me
There in the air I breathe
Like a river that runs through my heart how it seems
That my love he's a weaver of all my most infinite dreams

There where he lives in me
Amizade e amigo d'amour
In this beauty of silence
With the moon here beside me
How she takes off her white dress
Just to pass you her beauty

There where all our tears are just from laughter
There we are always together
Even when he's gone forever
There where he lives in me
There where he lives in me

In this beauty of silence
With the moon here beside me
How she takes off her white dress
Just to pass you her beauty

There where all our tears are just from laughter
There we are always together
Even when he's gone forever
There where he lives in me
There where he lives in me
