

Sing About You

Melody Thornton

I sing about you all the time
You can't believe that I would forget you
I think about when you were mine
I broke your heart I never meant to

I sing about you all the time
You can't believe I would forget you

I think about you all the time
I sing about you all the time

Your name is the first I say
When I talk about love lose
We were younger than ever
And we got caught up in the chaos

Your face is the first I see
When I think about good boys
You went to bat for my young heart
You must've really cared for me

Every love song on the radio
Well you should know that
There's a concert for you baby in my car
And you're the star
Every love song on the radio
I hope you know that
You're the melody of my heart
Yes you're my star

I sing about you all the time
You can't believe I would forget you
I think about when you were mine
I broke your heart I never meant to

I sing about you all the time
Can't believe I would forget you

I think about you all the time
I sing about you all the time

Your name is the first I say
When I think about a good time
We fought a bit here and there but
In the end you were still mine

Your face is the first I see
When I think about heartache
Given my chance to love over you
I don't think I'd change a dam thing

Cuz every love song on the radio
Well don't you know that
It's dedicated to you baby from afar
Even if I'm not where you are

Every love song on the radio

I hope you know that
You're still the melody of my heart
Oh yes you are

I sing about you all the time
You can't believe I would forget you
I think about when you were mine
I broke your heart I never meant to

I sing about you all the time
You can't believe I would forget you

I think about you all the time
I sing about you all the time
