

Lonesome Road

Memoria

This night's driving you crazy
Slowly your sanity flies on the loose
And you continue losing
Balance of your tortured mind

Who's gonna cure your painful doubts
You don't know how
You don't know how you came
To hate so much

You drive on in heavy rainfall
There is no way from the hell you are feeling

Who's gonna cure your painful doubts
You don't know how
You don't know how you came to hate so
Drive through the crazy, raging night
There is no way
There is no way out from your mad hell

Roads wind in the darkest of all nights
Wind blows an empty message
Lonely tune whispers secrets of your past
Hasn't anyone listened

Who's gonna cure your painful doubts
You don't know how
You don't know how you came to hate so
Drive through the crazy, crazy night
There is no way out
No way out from your painful hell
There is no way out
There is no way out ...
