

## Misery's End

Memoria

I do not want to know nor to feel  
What the weather is like  
My sun shines  
You make my nights starry bright  
And days superfine  
When you are here

Were the skies overcast with grey clouds  
I will thread silver lines  
And spin them round

Should the world all freeze up  
It will paint windows bright  
With frost flowers overnight

I do not want to know nor to feel  
What the weather is like  
My sun shines  
You make my nights starry bright  
And days superfine  
All year long

We never know never feel  
What the weather is like  
Our suns shine  
We make our nights starry bright  
And days superfine  
All life long

Crystal clear bright blue skies  
Fill my heart soothe my mind  
As I dance above clouds

Twisting round rainbow's end  
Wishing you remained there  
Forever held my hand
