

No Utopia

Memoria

Bloodshed stopped
And scavengers cruising over
Scream of anger and despair
That killed all the humans

Blinded windows open
Their houses' injuries
That's a different party
From what you have seen

Our world is no Utopia
Ever just and accurate
The world breaks down
A helpless freak
A sentimentalist

Blame the silly mankind
Or blame the religion
You can shout your pains out
Weep a million bitter tears

Our world is no Utopia
Ever just and accurate
The world breaks down
A helpless freak
A sentimentalist

Wounds of war cannot be treated
By the art of medicine
Helpless creatures suffer
When they see no end to a fight

Our world is no Utopia
Ever just and accurate
The world breaks down
A helpless freak
A sentimentalist

We are breaking down
The door went big bang
No-one knows when it closed
All has crashed
Broadcast is live on our TVs
Disgusting news
Fresh bloody news

Our world is no ...
Our world is no Utopia
Our world is no Utopia

Wounds of war cannot be treated
By the art of medicine
Helpless creatures suffer
When they see no end to a fight
