

# Understand Me Still

Memphis Bleek

Yeah you know, just vibe with me, just understand my life  
And ya don't understand me still  
I never enjoyed success, but my family did..  
And Ama write with that

I eat good, smoke good, you see I push the latest whips with the hottest bit  
ch  
Take trips to the coast of Bermudas  
But dog I'm from Flush Ave. where I pop toast for Aruba  
And I am Proud of myself, cause me true Dog, never acted never lie to myself  
I been in hollywood and back, guess what I'm Still M  
Say Number from the blue tops days, I'm still him  
You dudes think I'm touring like I'm part of you and out  
But is just about the performance, get the money we out  
Trying chill, trying to take the wife to eat  
But most girl, disrespectful when they try to speak, as if  
They don't understand, Let me live, Ma  
I'm with my fam, let me live, and I  
Try to be nice about being disrespectful  
One gets respects, when show one respect too

But you don't understand me still  
I never enjoyed success, but my family will  
And Ama write with that (Ama write with that, Ama write with that)  
But you don't understand me still  
I never enjoyed success, but my family will  
And Ama write with that (Ama write with that, Ama write with that)

Yo..  
I take it back home every chance I get  
Because I've been through every ghetto, but home I can't forget  
Wish I could take em all, on this ride with me  
But it wont be real, and if you asked it aint be reality  
I only fucked with a few, and If you real you know  
Soon you go, but if not, you don't yeah.  
We still family right, that's what you leave me to believe  
But ya don't understand my life  
I took Dre down to South Beach, just to show him what A few ones to do  
When you amongst your crew, we living  
I never picture I could ever loose him  
But I found myself with the thoughts that I'ma loose him  
I put the stash up, I'm just trying to save his life  
Just moved moms, had to moved her twice... down to Miami  
I thank God everyday of my life, that I could provide for my family

Yo..  
My brother survive, now everybody's doing fine  
I kept my moms away, to let her enjoy life  
I wish I could do the same, but I cant theirs work to do  
Rent due, there's more work to do  
I copped bikes let my niggaz ride them  
I copped coupes, let my niggaz drive them  
I'm proud to see my niggaz wilding, cause I remember them days  
They still vivid of me, huggin the block, young soul committed  
When I wrote rhymes dayly  
To get my flow up pray one day They whole world could hear me  
I love it when the crowd recited every word of it

When they bounce, Let me know that they all a part of it  
That two things make me proud of my life  
I thought I had it all, but the best give was life  
The third ?? I'ma brand new father  
Of a Healthy baby boy and its making me work harder

ya'll don't know, ya'll don't know  
And I'ma write with that  
All this cold nights risking my life  
But it's all good but misunderstood, ya don't know
