

# Everything I Need

Men at Work

Moving up and down and from side to side  
With so many things to do  
I want to go again I want another ride  
This time should see it through

We never realized as the years rolled by  
No we never really had a clue  
But we knew one day we'd come alive  
And in the end there's me and you

My babe, she gives me everything  
She gives me everything I need

When the winter comes and the cold sets in  
As this city's prone to do  
They forecast heavy seas and gale force winds  
that's really nothing new

When I'm falling down  
Deeper than the underground  
My thoughts race back to you  
Again and again

My babe, she gives me everything  
she gives me everything I need

And if you think us fools  
And you criticize  
Then my friend the joke's on you

My babe, she gives me everything  
She gives me everything I need.
