

## Fuel The Fire

Mendeed

Toal insanity  
We are falling into nothing  
We`re at war this war evermore  
We wont be the same  
We are sinking into silence  
We are feeding from the liars  
To the end of the earth  
We march unto this war

Take your laws of life and rewrite them  
Nothing that you say is the truth you're vile  
Ive seen it all in the eyer of deceitful  
Pray you live tonight

Fuel the fire raging through us all  
I can taste the sick inside I`m promising you I wont take  
this  
My hatred grows  
Fuel the fire if you dare I will not stand you as  
dictator

We wont taste defeat
