

## Glory Be Thy Name

Mendeed

Imitate - you have become a clone  
Your transformation has left me disgusted  
You're selfish and full of lies  
Without change your destined to follow  
Your feelings of self worth  
They will take you to the pits of inner hell  
And when you reach out for my hand  
I will not protect you

Take a look inside your soul  
Tell me what you feel  
It's guilt and you cannot deny it  
But you will  
You'll be alone when you fall

Can't you see?  
Can't you feel?  
Can't you comprehend what it means to drift away?  
It was you, it was I, it was our way. Is this the end?

Decide. The choice is simple  
Days gone by - run towards them  
They are where you come from  
They are what you're feeling  
They are everything that  
You are

Go to that place inside you  
Cut the cancer eating at your lifeline  
Your spirit strength will shine through  
As the cancer dies
